What's New for 2025: Thor Motor Coach Reveals Class A Diesel Pusher Updates

ELKHART, IND. (June 13, 2024) — Thor Motor Coach announces highly anticipated 2025 model year changes across its Class A diesel motorhome lineup. With an emphasis on technology and innovation, these updates promise to transform the RV experience for avid campers and adventurers.

Keep in touch with loved ones on the road like never before thanks to the Winegard® Connect™ 5.0—a versatile system that doubles as a WiFi router, 5G hotspot, and TV antenna now available in all 2025 Class A diesel models. Take advantage of higher upload and download speeds to post your trip photos to your social media channels, video chat with friends and family, or work remotely while traveling in this motorcoach. The Winegard® Connect™ also pairs well with the Smart TVs in every model for the ultimate movie night, regardless of your destination.

Enjoy comfort on the go with the Aqua-Hot® 250D hydronic furnace and water heating system, available as a standard feature on the 2025 Aria® diesel motorhome. This lightweight, two-in-one appliance saves space and makes year-round camping efficient. Plus, it's almost silent and highly economical to run, allowing you to relax and take in the peace of the outdoors. Moreover, to be more energy efficient and utilize green energy, Thor Motor Coach has included up to a 500-watt solar system option across all 2025 Class A diesel motorhomes.

The 2025 Palazzo® GT 37.4 floor plan now has leatherette power reclining theater seating with footrests, heat, massage, and USB charging ports for the ultimate glamping fun. You can also replace the sofa on other floor plans with this luxurious optional feature for relaxation on the go. If you're looking for a sleek RV design, choose the Palazzo® GT's Stealth Black-Out Package option, which includes black wheels, exterior mirrors, headlight trim, grille, air intake, and logos.

Turn heads wherever you go with the new Silver Fox full body paint, available on all 2025 Riviera™ diesel pusher models. Inside, you'll find a convenient pop-up wireless phone charger with outlets and USB charge ports on the countertop to plug kitchen appliances in and whip up meals from your home on wheels. There's also a central vacuum system onboard to clean up messes easily.
